Linda brought to my attention an issue with the model. I checked both the GNL/104(e) model and the 104(e) model in the Lotus Notes Model Document database and both have the language identified below. Linda said she thought one of you may have seen a document without that language. If so, could you please let me know where you came across the document so I can delete it? Thanks

Kevin

Kevin, please ask me about this paragraph for the GNL 104(e) model document. Thx

Linda – This is the language I added. Hopefully it is still there. Thank you.

Ed, the two documents have been replaced with your changes in e-routing. Let me know if you have any further revisions to make.

Hi Linda and Jan,

I made a few changes to the General Notice Letter and the Enclosure pertaining to the General Notice and the 104(e) Information Request, both of which I've attached. I don't know how to substitute the new drafts with the old in e-routing, though. Would you please help me with that? The e-routing is currently with Mark Peycke if that helps any. Thanks!

Ed, as discussed earlier I will be out of the office on Monday and Tuesday. Linda Brewer and Jan Johnson can help with edits and the mailing of the USOR letters. They're great so get their help if you need it.
